

IPC Car Boosters test results as conducted by an Austrian Ministry

The following contacts, evaluated tests, and reports were organized
by CARBOOSTER AUSTRIA, Thomas Aigelsreiter CEO.

The Austrian Federal Office for Agriculture, Forestry, Environment, and Water Management tested the IPC CARBOOSTER Original Series (meanwhile outdated) and replaced by series 1000 and tested the series 1000 and 3000 under the supervision of the specialist inspector Mr. Reinhold Dadateschek.

The IPC CAR BOOSTER products have been extensively tested in the vehicles used by 4 Austrian Ministers, using the following vehicles:

- Audi A4 (2013) Diesel
- VW Passat (2013) Diesel
- VW Multivan T4 (2004) Diesel
- BMW i3 (2013) Electric Car

All values indicated on the following pages have been taken by the above mentioned Ministry and have been directly reported to CARBOOSTER AUSTRIA.

Reduce your fuel consumption,
decrease cost,
reduce as well electro magnetic field, electro smog and pollutant emissions.
