Radio frequency exposure

iPhone uses radio signals to connect to wireless networks. For information about radio frequency (RF) energy resulting from radio signals and steps you can take to minimize exposure, go to Settings > General > About > Legal > RF Exposure or visit <http://www.apple.com/legal/rfexposure/>

which leads you to STEP 1 STEP 2 STEP 3

The screenshot shows a web browser window displaying the Apple website's "Legal" section, specifically the "RF Exposure" page. The page is titled "STEP 1" and "RF Exposure". Below the title, there is a section titled "Choose a Product" with a grid of ten product options, each represented by a small image of the device and its name below it:
